WORK EXPERIENCE

Student Research Assistant: Summer 2024

My responsibilities as a student research assistant were to actively compile several databases ranging from literature to companies and audiodescribers. These databases will be used in current and future research on Audiodescription.

SheCodes Training: February-August 2024

Learned how to work with programming languages: HTML, CSS and Javascript. Made websites responsive with Bootstrap and learned how to create applications in React.

Live spotter subtitles: July 2023

During the screening of the Italian film "L'albero degli zoccoli" at the Zomerfilmcollege 2023, It was my job to spot the English subtitles using the software Qstit.
